## REV. HORGER MAKES SOME EXPLANATIONS

### Why I Joined the Pentecostal Church of the Nazarene.

To my brethren, friends and all those who may in anywise be interested in things Divine and eternal, I offer the following reasons for changing my membership from the M. E. Church, South, to the Pentecostal Church of the Nazarene.

I was born of shouting Methodist parents of the old Methodist type, and reared in a Methodist cradle, often under the sound of a heaven-born jubilee of the old Methodist hallelujah style.

The idea of a deep, thorough, whole-hearted salvation possessed me as far back as I can recollect. I longed for the time when my whole body, intellect and spirit should be filled and thrilled with the light, life and glory of God the Father, Son and Holy Ghost.

At the age of thirteen I was born again, and Methodist-like, I came through shouting. I joined the M. E. Church, South, and entered suit for my ideal of Divine life, leading in song both for the Baptist and the Methodist—the only two churches in our vicinity at that time,—always praying in public when called on, and working in the altar teaching and helping to lead penitents and repenting souls into the fountain of life. I attended, taught and superintended Sunday schools as often as the church called me to the community. About twenty years of my life passed when the Methodist annual conference sent us at Corrigan, Texas, a red-hot second blessing sanctification pastor. Figuratively speaking he turned the town upside down, and set it on fire: some burned with holy fire, some with hell fire.

Our next pastor was of the same type and did likewise. Both of them urged that they were preaching and correctly interpreting God's Word, and that such were the preaching and interpreting, teaching and doctrine of Wesley, Fletcher, Clark, Watson, Asberry, and all the leading representatives of the Methodist church for the first one hundred years of its unparalleled revival career. Quite a number of our best and most spiritual people believed and plunged into the fountain and were made white and whole.

But I, like a doubting Thomas, had to examine and weigh the testimony, and carefully scrutinize the life and spiritual power of those who professed sanctification. However, in the latter part of the pastorate of our second holiness pastor, God's grace overtook me in mighty convincing power of the truth, deeply convicting me of uncleanness and unholiness of my innate nature and the lack of the proper measure of Divine power to qualify for effectual service for my Master's cause and kingdom. I fell at His feet and confessed—not my guilt, for I was already regenerated, pardoned and born of the spirit—but I confessed a defiled condition within, called in God's words "sin in me," "the old man," "the body of sin," "double-mindedness," "filthiness of spirit," etc. In great darkness I passed through the Garden of Gethsemane, wearily all alone, I went forth to Him without the gate. While I lay prostrate on the floor in great agony of soul and prayer that could not be uttered, by faith the eye of the soul glanced towards the throne of His grace and glory, and instantly my soul was filled with a train of celestial fire. The first words that fell from my lips were, "Glory to God; you have come at last." The fire ran through me like an electric current, extending to every fiber of my being. The glory of God—a heavenly light—was now over me, and under me, and all around me, while from within were billows of holy rapture, triumphant joy, praise, honor and glory pouring forth in words marvelous to my own soul. For days, weeks, months and years my soul was responsive to this state of holy fire as dry tinder is to the literal flame.

Often when my thoughts have been directed to material things of earth for hours I have no more consciousness of the Divine fire in my soul than if I had never been baptized with the Holy Ghost and fire, but it has often been a marvel to me to find that with just a little provocation by meditation on the Divine things, or conversation on the

subject of salvation, or reading of spiritual literature, or singing of holy songs, prayer and praise, my soul is again lighted with a living flame of holy love, burning on for hours and sometimes for days, without effort on my part. Seemingly independent of time and timely things, it burns on like the flame clings to the wick of the lamp well filled with oil. Yet some of my brethren want to tell me that I am just deceived in this matter.

Well, all the glory be to the Father, Son and Holy Ghost forever and ever.  
REV. J. T. HORGER.

Lacoste, August 11, 1915.

### Return From Fine Trip.

Messrs. B. G. Collier and Lee Green returned this week from a prospecting trip in the Boerne country. Mr. Collier says there is some picturesque scenery in the mountains around the metropolis of Kendall county; he says fruit and vegetables are plentiful, and that the best water that ever quenched the thirst of weary wayfarers is supplied by innumerable springs among the mountains; says that people in that section are apparently prosperous as they do not pay homage exclusively to King Cotton but divide their allegiance with the King's more liberal ministers, Wheat, Corn and Oats. As Mr. Collier is offering his home, north of Hondo, for sale in today's paper the prospect seems good for Medina county to lose, and Kendall county to gain, a good citizen.

## DO YOU KNOW THIS OLD LADY?

Two Interesting Photographs of Lorraine Huling, Thanbouser (Mutual) ingenue, Showing Her in Make-up, and as She Really Is.

Would you believe that the sad and wrinkled faced old lady in the mourning outfit was the beautiful and vivacious young woman whose photograph is inset beside her? Yet they are the same person, a striking illustration of how completely an actress, adept at make-up, can change her entire personal appearance.

The photographs are those of Lorraine Huling, the talented Thanbouser (Mutual) ingenue, noted as one of the most clever make-up artists in filmland. So completely did Miss Huling change her appearance by donning the widow's weeds and by the use of make-up, that she appeared at a reunion of Civil War Veterans on July 4th, mingling with scores of other aged women, without her identity being penetrated. Miss Huling's reputation for work of this kind on the screen has won for her a distinctive reputation in the realm of motion pictures.

### Base Ball Game.

Thursday afternoon at de Montel park, the Devine team met the fast Sabinal nine. This was a match game between these teams and played at the Sabinal grounds. The Sabinal team either one to visit the other on account of the distance.

This was a great game as far as "bone" plays are concerned. Devine pulling three in one inning—something they never did while playing Hondo. Sabinal got the jump and early scored three, but Devine came back in the 7th and by a desperate rally Windrow got on and Gray followed with a clean three-bagger, Windrow scoring. Ehlinger followed with a sacrifice scoring Gray. The next two up were easy outs, ending a dangerous attempt to tie up the game.

The rest of the game was uneventful, Devine not being able to connect with Johnson's shoots—to do any good.

Features of the game: For Sabinal—Johnson's pitching, he allowed only four hits. For Devine—Windrow starred, his tagging of runners at second was great, but Redus was very nearly the whole game, he allowing only two hits.

It was a great game and barring the bone-head plays made by Adams of Devine, it would have been a real battle. The pitching was just about even, Johnson allowing more hits than Redus, but he also got three times the number of strike-outs.

Score: Sabinal 3, Devine 2.  
Batteries: Sabinal, Johnson and Koch; Devine, Redus and Crawford.  
Umpires: Smith and Longley.

### Farmers' Meeting.

The regular meeting of the County Farmer's Union convened here Saturday at Farmers' Union Hall. There was a good attendance of delegates from all parts of the county.

The principal business coming before the meeting was the receiving and adopting of the report of the county delegate, Mr. Henry Bendele, to the recent State Convention at Houston. Mr. Bendele gave a very complete report of the addresses delivered, the resolutions adopted and the officers elected at the recent state meeting, and his report was unanimously adopted.

The next regular meeting will be held with the Black Creek local.

By a coincidence, a Farmers' Institute had been called for the same hall at the same hour as the Union meeting, the party announcing the meeting of the Institute not being aware that the Union was to meet. This compelled a postponement of the Institute lectures until after the Union meeting.

After the business of the Union was transacted, Fletcher Davis spoke briefly on the work of the Agricultural Department, paying particular attention to the marketing problem. He then introduced Mr. Sam Neel of Seguin who spoke interestingly of plant growth and fertilizers. Mr. Neel recommends the use of more barn-yard manure and the planting of more legumes for soil improvement rather than the buying of commercial fertilizers.

Through the courtesy of Mr. Martin

at the Star Theatre Mr. Neel spoke between the reels at the moving picture show Saturday evening. He addressed his remarks chiefly to the children and touched mainly upon kindness to animals and interesting facts about plant growth.

Messrs. Fletcher Davis and Sam Neel left Monday for points west to fill a two weeks' itinerary. They will also attend the Texas Dry Farming Congress at Eagle Pass while away.

### An All Southwestern Team.

Below are the names of players picked for the All Southwestern Texas ball team—to our mind the best for the positions without the question of a doubt. We will omit any player who has played one game only.

Pitchers—Bradley and Miller of Hondo, and Redus of Devine. These three are the class of the country. No comments are needed except that besides earning a place in the first three, Miller is the best utility player seen on the local diamond.

Catcher—Pegues of Hondo, has the class. His experience, his hitting, and ability to play every day, not to mention the fact that he has a real throwing arm, easily winning him the position. Crawford of Devine is only second to Pegues, while Milton Schmitt didn't work enough to show his real class. These three are the only catchers with ability who have shown in Hondo.

First Base—Gray of Hondo gets the call over several good boys. His ability to get 'em anywhere, and his natural knowledge of the game, besides his dangerousness as a hitter in a pinch, earns him the job. G. Roth of El Paso is next close up.

Second Base—This is the hardest position on the team to place, there being several good men for the job, but to our mind Bowman of Devine ranks first because of his "pep" and his coolness under fire, and his head work. On top of all this Bowman is not so rotten with the stick. Another thing that makes it difficult to pick a second baseman is the fact that not a single man on any team was considered good enough to hold his job over and above other men who might happen along. Consequently men who were considered regular second basemen were bumped off the team when that team had scheduled a hard series of games.

Third Base—Ezzell of Hondo is without a peer in these woods. This player could lose a leg and then beat all others to the job. His hitting and fielding were excellent, and his base-running is the best in the country.

Short Stop—Redus of Devine is best, this being his regular position and he is a bird at the job, being fine on ground balls. His throwing is great, and he plays the position like a professional.

Left Field—Chas. Johnson gets the preference. He is a fast, sure slider, a fine bunter and aggressive enough to suit anyone's taste, besides being a left-hand batsman and fast and dangerous base runner.

Center Field—E. Starnes of Hondo is best. This player, besides being the fastest outfielder that has played in Hondo this year, is the best lead-off man, and with his natural speed, it is hard to keep him off the team. Starnes also gets as many hits as any other player we know of, which, with his speed going to first, makes him valuable as a lead-off man. He has only one fault, and that is, he has scruples against hitting the dirt.

Right Field—Thompson of Devine has the call over several good boys, for Snow of Hondo, Jess Koch of D'Hanis, and McKaig of Devine are hard men to beat, and it hurts to put them out of the running. Snow was the best sun fielder that ever played on the Hondo diamond, but Thompson has the call because he is a better hitter. McKaig didn't get enough practice to be at his best, while Jess Koch had to catch nearly every game he played in, so he didn't show the stuff that he really has.

Batting order for the "myth" team would be: Starnes, C. F.; Thompson, R. F.; Ezzell, 3rd base; Pegues, C.; Johnson, L. F.; Thompson, 2nd base; Gray, 1st base; Redus, S. S.; Miller, Redus, Bradley, P.

We claim that the above team could make any amateur team in Texas play ball, and outside of C. Johnson the players selected are practically Medina county boys, and Johnson lived here years ago.

## NEW RECORDS MADE IN DRIVING CONTESTS

### Economy Tests of Light Sixes Are Very Sensational

Reports of records made by 105 Saxon sixes in a nation-wide economy driving contest indicate that new records in economy will be established by the cars that entered. Complete records of the performances and announcement of the winner will be made within a week by the Detroit newspaper men who acted as judges.

Despite the fact that the runs started over roads made muddy by almost two days of steady rain, the general average made by the 105 competing dealers was better than twenty miles per gallon of gasoline. Oil consumption was correspondingly low.

Reports received thus far tell of unusual records made by C. F. Seward of Kokomo, Ind., and E. H. June of Binghamton, N. Y., both of whom drove through from Detroit to their home towns and averaged better than twenty-six miles to the gallon of gasoline all the way.

It is announced that H. Ross Maddocks of Boston has been awarded the special prize given to the dealer covering the longest distance in his drive. Mr. Maddocks drove from Boston, making 541 miles and averaging twenty miles per gallon of gasoline all the way. He made a nonstop run from Buffalo to Boston.

The chief prize, a reproduction in bronze of the figure which features the Saxon trademark, will be awarded to the dealer making the best showing in economy and all-round performance. The judges will consider the reports sent in by the contestants from the standpoint of gasoline and oil consumption, road conditions, weather conditions, length of trip and average speed maintained throughout. Each entrant had to make a run of 100 miles or more in order to qualify for the prize.

Competing against 104 veteran dealers, Miss Edna Wiesenthal of Milwaukee, piloted the six-cylinder Saxon owned by R. D. Rockstedt of that city from Detroit to Milwaukee in an endeavor to win the honors. She covered 480 miles, made the distance in eighteen and one-half hours, and averaged twenty-four miles to the gallon of gasoline. So far as is known, this is the first instance of a woman entering an automobile contest. The driver of this car made one of the longest trips taken by any of the dealers.

William (Billy) Knipper of Rochester, N. Y., who achieved National fame several years ago in many speed events, sprung a sensation by driving from Detroit to Rochester continuously day and night. He covered 462 miles with an average of twenty-four miles per gallon of gasoline—San Antonio Express.

Saxon automobiles are for sale in Medina County by the Citizens' Motor Car Co., Hondo.

### Peters—Walker.

Cards have been received from Mr. and Mrs. J. Wicks Walker of Huntington Beach, California, announcing the marriage of their daughter, Miss Halie, to Mr. Oscar William Peters of Hondo, Texas. This happy event occurred on Wednesday, August 4. Prof. Peters left Hondo some three weeks ago for California, and that wise old dame, Madame Rumor, immediately attributed another motive than a desire to see the Exposition to his journey. Prof. Peters has long made his home in the vicinity of Hondo and was principal of the Hondo High School for the past term and was unanimously re-elected to succeed himself in the same position for the approaching term. Miss Walker is also well known in Hondo, having made frequent visits here, and also taught one of the grades in the Hondo school for the 1914-15 term, and so satisfactory was her work that she, too, was re-elected to teach her grade in the 1915-16 term of the school.

Both of these young people have a host of friends among the good people of Hondo, who, in connection with the Anvil Herald, extend congratulations and best wishes for a long and happy wedded life.

## MAN TO BE PITIED

Born Dissenter Finds Himself  
With Few Friends.

The World Hesitates to Believe in the  
Honesty of Such an Individual,  
Though He May Consider  
Himself Independent.

The born dissenter generally merits a share of the world's frowns which he somehow manages to evade. Perhaps it is because the world pities him, and what it pities it hesitates to frown upon. But a lively soul abhors pity as much as it does condemnation. Not the born dissenter, however. If he abhors anything it is the thought that some day he will miss an opportunity to exhibit his talent for dissenting in a situation where his example would influence others to see his conception of right. He denies himself tobacco not because he does not like it, but because he likes to have his friends believe that he thinks it injurious, and has the strength to do without it. In the midst of a social gathering he pleads a business engagement as an excuse for leaving. He has no business engagement, but it pleases him to think that he has impressed a certain group of persons with his attention to business, even in the face of a pleasant alternative. In matters of politics and religion and other things that do not immediately touch his "pocketbook," his opinion is generally contrary to that of the majority, not because that is the way he thinks, but because to be with the majority is to be merely one of the mob, and to admit the possession of intellectual attributes hardly above the ordinary. He calls this independence, and as often as not he is admired for it. He is also commended for his virtues. They are stern virtues, and he clings to them successfully. As a matter of fact, they are negative virtues, and all of them involve his penchant for dissension. He is good because, to his way of thinking, the vast majority of persons are not good. He is, therefore, different and better, and this is distinction enough for him. The only trouble with him is that he has frozen the soul out of himself. His kindness consists in avoiding opportunities to be unkind, and since kindness is the greatest of human virtues he is forced to live a frigid existence in the alleyways of life, and men pity him.—Exchange.

### Last Resort.

"Well, we have exhausted reason, logic, common sense and justice. What more can we do?"  
"I guess we'll simply have to go to law."—Life.

If you sit in a cool draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on Ballard's Snow Liniment and don't be talked out of it, because it is the best pain relieving liniment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

Percy Noodles says that when he wrote to the capitalist's daughter at the sea-shore not to stroll on the beach in her bathing suit without an ulster she wired back that she had an ulster, but her poor old mother needed it most.

In every home where there is a baby there should also be a bottle of McGee's Baby Elixir. It may be needed at any time to correct sour stomach, wind colic, diarrhoea or summer complaint. It is a wholesome remedy, contains no opium, morphine or injurious drug of any kind. Price 25c and 50c per bottle. Sold by W. H. Windrow.

Of course it is all right to hate the rich, but so far as we know Mr. Rockefeller has never prevented anybody from displacing a kerosene lamp with a tallow candle.

If your child is pale and sickly, picks at the nose, starts in the sleep and grinds the teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in White's Cream Vermifuge. It not only clears out the worms, but it restores health and cheerfulness. Price 25c per bottle. Sold by W. H. Windrow.

What has become of the old-fashioned wild-and-wooley who wanted to shoot up the town after he got the back of his neck shaved?

Sallow complexion comes from bilious impurities in the blood and the fault lies with the liver and bowels—they are torpid. The medicine that gives results in such cases is Herbine. It is a fine liver stimulant and bowel regulator. Price 50c. Sold by W. H. Windrow.

Frying-pan fare in the summer time is almost enough to make a revolutionist out of a money lender.

Constipation is the starting point for many serious diseases. To be healthy keep the bowels active and regular. Herbine will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by W. H. Windrow.

### Time to Act.

Don't Wait for the Fatal Stages of  
Kidney Disease. Profit By People's  
Experiences.

Occasional attacks of backache, irregular urination, headaches and dizzy spells are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Hondo proves the effectiveness of this great kidney remedy.

E. M. James, retired farmer, Hondo, says: "I came down with an attack of kidney trouble. My kidneys were disordered and failed to act properly. The passages of the kidney secretions became far too frequent and I was compelled to arise several times at night on this account. I was bothered constantly. Finally I got a box of Doan's Kidney Pills at Windrow's Drug Store and they gave me prompt relief. Two boxes entirely removed the trouble. I have had no kidney complaint since."  
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. James had. Foster-Milburn Co., Props., Buffalo, N. Y.

### Despondency Due to Indigestion.

"About three months ago when I was suffering from indigestion which caused headache and dizzy spells and made me feel tired and despondent, I began taking Chamberlain's Tablets," writes Mrs. Geo. Hon, Macedon, N. Y. "This medicine proved to be the very thing I needed, as one day's treatment relieved me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble." Obtainable everywhere.

The reason a man is a man is because he remembers distinctly in what year he bought his automobile although he has forgotten when his wife was born.

### The Clerk Guaranteed It.

"A customer came into my store the other day and said to one of my clerks, 'have you anything that will cure diarrhoea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and said to him, 'if this does not cure you, I will not charge you a cent for it.' So he took it home and came back in a day or two and said he was cured," writes J. H. Berry & Co., Salt Creek, Va. Obtainable everywhere.

It has just about gotten so in this country that as soon as a man shows interest in a reform he is visited by the collector.

### Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I never hesitate to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Sol Williams, merchant, Jesse, Tenn. "I sell more of it than of any other preparations of like character. I have used it myself and found it gave me more relief than anything else I have ever tried for the same purpose." Obtainable everywhere.

Girls, also remember this: If there's beer in the back of the young man's car there is no place in his heart for you.

### What is Best for Indigestion?

Mc. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. For sale by All Dealers.

Furthermore, the golden rule seems such a good thing it deserves to be tried.

### Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by All Dealers.

The farmer driving his own automobile isn't much of a joke to the town wise guy who couldn't flag a jitney.

### For a Sprained Ankle.

If you will get a bottle of Chamberlain's Liniment and observe the directions given therewith faithfully, you will recover in much less time than is usually required. Obtainable everywhere.

Another thing we like about a girl in white shoes is that she never seems to kick the tar barrels.

## Ballard's Snow Liniment

Is a Healing Remedy for all Ailments of  
the Flesh of Man and Beast.

The speed with which this splendid Liniment heals up a bad wound or sore has surprised and pleased those who were accustomed to the slower and uncertain effect of less powerful remedies. It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgia, sciatica, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment.

It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons. It heals sores and wounds quickly, and leaves no disfiguring scars. This remedy is needed in every home. It is a great power and efficacy was generally known, no family would be without it.

## To The Public

This is to notify the public that the partnership heretofore existing between Joe Fohn and Fletcher Davis, under the name of the "Hondo Land Co." has been this day mutually dissolved. All written contracts previously made will be completed as agreed upon, but any new business entrusted to either party will be transacted separately, and the name, "Hondo Land Co.," will be retained by Fletcher Davis.

TWO NEW MUTUAL PHOTOPLAY STARS

"Apollo" and "Nero," World-Famous Performers, Who Will Shortly be Seen in Rorsley Animal Plays, to be Released in the Mutual Program.

"Apollo" and "Nero" are the names of these two magnificent specimens of the African jungle kings, who will shortly make their bow to Mutual audiences as full-fledged screen actors. They are members of the celebrated collection of performing animals, owned by the Bostock Jungle and Film Company, of Los Angeles, Cal., who, early in September, will release the first of many novel animal motion pictures through the Mutual Film Corporation. These lions, as members of the world-famous Bostock collection of jungle animals, toured the globe several times and appeared for several seasons at Dreamland Park, Coney Island. They have been taught to perform marvelous feats by their famous trainer, M. Gay, who will appear with them in the screen plays they are to be presented in.

This trip is being made for the purpose of establishing a loop of about 425 miles out of San Antonio, that the winter tourists can use and enjoy all winter while visiting here, and our local people will enjoy it during the summer months, making two tourist crops per annum, that the people along the route will harvest, provided, of course, the roads are put in good conditions.

We will have two speakers of national reputation and one Government man, and several

local business men and their families in our party, also a Press Reporter and Photographer. We will be glad to be of as much assistance as possible to all the communities along the route holding Good Roads meetings, etc., as per schedule.

For further information address D. E. Colp, Sec. Texas Good Roads Association, San Antonio, Texas.

### Farmers' Institute Organizers.

Aug. 3, 1915.

Dear Sir:—

To "get results" for the farmer this Department must have the active co-operation of, and establish the closest possible relations with the actual farmers and women of the farm homes of the State.

This can be secured only through community organizations. To this end, and for the purpose of organizing local institutes, Sam Neel and Fletcher Davis, representing this Department, will lecture at the following places on the dates, and the hours stated below:

Brackettville, Aug. 14, 3:00 p. m.

Eagle Pass, Aug. 16-17-18-19,  
8:00 p. m.

I extend an invitation to the general public, farmers especially, to hear the discussion of such topics as organization, improvement of farm conditions, diversification, crop rotation, co-operative marketing, and the like. Urge especially the attendance of the ladies.

Will you kindly lend the State of Texas your aid in securing a good attendance at these meetings?

Very truly yours,  
**FRED W. DAVIS,**  
Commissioner.

### No Laughing Matter.

Mrs. Penn—I suppose you know that my husband is a professional humorist.

Mr. Knox—Oh, yes, I have read a number of his jokes.

Mrs. Penn—He never laughs at any of them himself. Isn't that strange?

Mr. Knox—No, I can't say that it is.

### Marital Assertion.

"Men are too easy with their wives. They should assert themselves more, and make the women understand they are to obey, and not command. That's my creed."

"I'm with you. Have a cigar?"  
"Don't care if I do if you don't mind coming outside. My wife won't allow me to smoke in the house."

### A Sacrifice Hit.

Mr. Highbrow (of Indianapolis)—Are you fond of ethnology, Miss Brushwood?

Miss Brushwood (of Terre Haute)—Oh, my yes; but I'm afraid to eat them—they look so much like toadstools, you know.

### About the Size of It.

Little Lemuel—Say, paw, what's the difference between a defaulter and a thief?

Paw—A defaulter, son, steals enough to hire a good lawyer and a thief doesn't.

### LEAST WORRY OF WATCHMAN

Keen, But Subtle Reproach Conveyed to Inquisitive Visitors at Ruins of Wellesley College.

A merited retort is not always a retort courteous. The rebuke that was administered to a party of intruding tourists by the old watchman who was set to guard the ruins of College hall at Wellesley not long after the great fire conveyed a keen but subtle reproach.

"Ye've got to keep out!" he ordered gruffly, when he caught them trying to slip under the ropes that surrounded the crumbling walls.

The inquisitive visitors paused and eyed first the ruins and then their determined guardian.

"See here," a callow youth accosted him, "we're willing to risk it, and we'll take all the responsibility. What do you care if we lose our lives?"

"Ye've got to keep out. I ain't thinkin' of your lives; I'm thinkin' of me job."—Youth's Companion.

### The Woman of It.

Mrs. Church—So your daughter's to be married tomorrow?

Mrs. Gotham—She is, I am glad to say.

"And is the groom a man of your choice?"

"He certainly is not."

"Why are you glad she is to be married, then?"

"Well, I just feel like having a good cry."

### They Had Cut Him Down.

One day, in the lively old time of cowboy activities, a timid tenderfoot at Bitter Creek asked tremblingly if that bad man, Bill Busher, was hanging around there yet.

"No," replied the native who was asked. "But he was last week."

"Are you sure?" said the tenderfoot. "Positive. I had hold of the rope."

—Browning's Magazine.

### Shooting Up the Town.

Bill—I see for lighting gas burners an inventor has patented a pistol in which a spring shoots a rod of flint through a roughened steel ring, producing a shower of sparks.

Jill—If it is adopted for street lighting I suppose it will be said at eventide that it is about time for the lamp lighter to shoot up the town.

### An Economy.

"No money, no trunks," said the frugal landlord. "If you don't pay your board, we'll hold your trunks till you do."

"Splendid!" said Dedbroke. "That'll save me the expense of storage on these things of mine until next season. By-by, old man!"—Judge.

### NOT FOR HIM.

Mr. Elephant—I have a mind to hire you as my valet.

Mr. Monk—What, and have to carry your trunk around for you all the time? I guess not.

### Proper Thing.

"They tell me Smith's business has all gone to seed."

"Poor fellow! Then he's ruined."

"Far from it. He supplies the farmers and suburbanites all around."

### Their Status.

"English candidates for parliament are a sort of strap-hanging class, aren't they?"

"How do you mean?"

"Don't they stand for a seat?"

### Very Cruel.

He—When I went to the hospital they put the X-ray on my head, but they couldn't find anything there.

She—Ah! Did they expect to find anything?

## A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring, if your nerves are excited, if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Bowne, Bloomfield, N. J.

## Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich. "I have suffered with pains in my back and under my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

## Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

THIS is unquestionably the most successful medicine in the world for the treatment of colic, cholera, and diarrhea. It is the recognized standard over a large part of the civilized world. Every man of a family should keep this remedy in his home. Buy it now. It may save life. PRICE, 25c. Large Size, 50c.

EYE STRAIN

is an important element in the causes of many nervous disturbances found in school children. Life is shortened by nervous debility and many a child is harmed more because his eyes are imperfect than from over-taxing his brain. Headaches are often cured, dull and stupid children made bright and the teachers' burden lightened by the correction of defective vision.

LAND—\$12.00 PER ACRE

100 Acres Up—One-third Down

—Balance Easy Terms  
—Seven Per Cent

This is good heavy sandy loam land, lies two miles south of Batesville, fronting main county road on one side, daily mail and telephone connection, other side fronts on the Leona river, shallow water at 48 feet, heavily timbered and level as a floor.

To give you an idea the kind of land it is, one man, who has just bought 500 acres and is clearing it, is getting from seven to eleven cords of wood per acre, besides posts and staves. Grubbing is cheap now, this man paying six dollars per acre. He has just finished drilling two wells, struck water at 48 feet, went through twelve feet of water gravel, gave it the strongest test possible but could not lower it an inch.

Batesville, the county seat of Zavala county, is located twenty miles from Uvalde and fifteen miles from La Pryor. It maintains a High School, classified as such by the State Department of Education, which is in walking distance of this land.

This is the best buy in Southwest Texas and we have only about 1600 acres left at this price. Anyone wanting something good had better come and look at this. Can sell in tracts of 100 acres up, each tract fronting both the road and the river, \$12.00 per acre, one third down, balance to suit at seven per cent. If interested, write or phone and we will meet you in Uvalde anytime and show you the land.

### W. R. Meredith Brought Back.

Sheriff Bader returned on Friday evening from Carrizozo, Lincoln county, New Mexico, having in custody W. R. Meredith, under indictment in this county on a charge of embezzlement and who was recently surrendered by his bondmen. Meredith interposed no objection to returning to Hondo, consequently the sheriff had no trouble in securing his prisoner, although he was armed with a requisition from the Governor of Texas on the Governor of New Mexico in case he had to resort to the court to get possession of his prisoner. Meredith has not been incarcerated in the jail since his return here but has been let under guard. It is thought he will be able to furnish a new bond within a few days.

## WHEN YOU CAN HAVE A "SIX" AT \$785 WHY TRY TO BE CONTENT WITH LESS?

For years men have recognized the superior power, "pep" and permanence of six-cylinder motors for touring cars.

But the prices were high.

Those who wanted lower-cost cars had to be content with fours.

Today you can enjoy all the admitted advantages of a "six" for \$785—in a Saxon "Six" touring car.

The Saxon "Six" is practically the first car of advanced design announced this season, just as it was the first "Six" at less than \$1,000.

More Saxon Sixes are in use today than any other low-priced "Six". You take no chance when you buy a Saxon.

## Be a Man.

If born a man, then be a man,  
Hold honor, faith, thy own;  
Express them even if thy blood  
Should for thy creed atone.  
Forfeit thy life a hundred times  
Ere thou thy word dost break;  
Let all be lost; 'tis not too much  
To pay for honor's sake.

If born a man, then be a man,  
And bargain not away  
Thy independence, even for all  
The great world's rich array.  
Despise the knave who sells himself,  
The man who has his price.  
"A beggar's staff and liberty"  
Beneath thy device.

If born a man, then be a man,  
Strong, brave and true as steel,  
Then trust that neither man nor fate  
Can crush thee 'neath the heel.  
An oak be, which the hurricane  
May shake and bend and rend,  
But ne'er possess the power its frame  
Or giant force to bend.

## PROGRAM OF THE MEETING

of Texas Dry Farming Congress  
Which Convenes at  
Eagle Pass

AUGUST 17, 18, 19 and 20

Eagle Pass, Texas, July 31.—  
The seventh annual session of  
the Texas Dry Farming Congress  
will be held August 17, 18, 19  
and 20 in Eagle Pass, the cen-  
ter of a large territory where the  
system can be applied with as-  
surance of the most beneficial  
results. The system is intended  
for regions where the rainfall is  
sufficient for plant growth  
through methods that retain and  
conserve moisture, and has been  
successfully employed for biennial  
crops on an annual rainfall  
as low as 10 inches. The govern-  
ment record of rainfall at  
Eagle Pass for forty-four years  
gives an average of 20.95 inches  
per annum. During this period  
only five years had less than 15  
inches precipitation, sufficient,  
when the distribution is favor-  
able, for the production of an-  
nual crops. The record for  
Eagle Pass (typical of the Rio  
Grande Valley below Del Rio)  
shows that of the 20.95-inch  
average rainfall, 14.62 inches,  
or over two-thirds, fell in the  
months of April, May, June,  
July, August and September—  
that is, when it is most needed.

### THE PROGRAM OF THE SESSION.

The officers of the congress  
are: Benjamin R. Berkely of  
Alpine, president; A. J. Durham  
of Sabinal, vice-president;  
Joseph O. Boehmer of Eagle  
Pass, secretary.

The official program for the  
session of the Dry Farming Con-  
gress is:

#### FIRST SESSION

Tuesday, Aug. 17th, at Mes-

WITH YOUR HANDS TIED by some chronic  
"female complaint" or  
weakness, what can  
you expect? There's  
nothing you can accom-  
plish—nothing you can  
do. And no good  
reason for it. Doctor  
Pierce's Favorite Pres-  
cription will cure you,  
safely and certainly, if  
you'll give it faithful  
use. For every one of  
these womanly trou-  
bles, this is the only re-  
medy. In periodical pains, bearing-down  
sensations, organic displacements, and  
every kindred ailment, and in all the  
nervous disorders caused by functional  
derangements.  
Mrs. FANNIE HARRISON, 202 South Hill Avenue,  
Dallas, Texas, says:  
"This is to certify that I have used Dr.  
Pierce's Favorite Prescription and I know it is  
good for me. I was in a bad way. I was  
where I could not do my work. I lay around  
all of the time. It was recommended to me  
by a friend. Will say to those who are suffering  
in any way from female trouble to take the  
"Prescription" and it will straighten them out."  
Dr. Pierce's Pleasant Pellets regulate  
and invigorate stomach, liver and bowels.

Election of officers.

Reports of committees.

Selection of next meeting  
place.

#### Is Sickness a Sin?

If not, it's wicked to neglect illness  
and means of relief. It's wicked to  
endure Liver Ills, Headache, Indiges-  
tion, Constipation, when one dose of  
Po-Do-Lax gives relief. Po-Do-Lax  
is Podophyllin (May Apple), without  
the gripe. It arouses the Liver, in-  
creases the flow of bile—Nature's an-  
tiseptic in the Bowels. Your Consti-  
pation and other ills disappear over-  
night because Po-Do-Lax has helped  
Nature to remove the cause. Get a  
bottle from your Druggist to day.  
Get rid of your Constipation over-  
night.

Tillie Clinger says her room is so  
small at her new boarding house that  
when she tried to brush her teeth she  
broke the window with her elbow.

## Indiana Man's Kidney Troubles Disappear

"After suffering many months from kidney trouble," writes W. R. Fox, of Noblesville, Ind., "and after having tried many remedies and prescriptions, I purchased a box of Foley Kidney Pills. They not only did me more good than any other remedy I had ever used, but they positively set my kidneys right. Other members of my family have used same with similar results."

From every state in the Union come unsolicited letters telling of satisfactory results from Foley Kidney Pills. When the kidneys become clogged up, get sluggish, and filter and strain out of the blood only part of the poisonous waste matter, the balance remains and circulates through the system, uric acid forms, and swollen, painful joints and muscles are the result.

Foley Kidney Pills cleanse and tone up the kidneys, so that backache, rheumatism, sore muscles, aching joints, annoying bladder disorders and irregularities soon disappear.

## CUTWORM IS DEFIED

Long Island Man Has Found  
Way to Save Tomatoes.

Incases Young Plants in Wax Paper  
Drinking Cups, After Cutting Out  
the Bottom of the Cup—Plan  
Works Well.

L. J. Bisbee of Malverne, L. I., has found a novel use for wax paper drinking cups after they have been used. He, like many other persons, grows tomatoes in his garden and has discovered that by cutting the bottom out of a drinking cup, slipping the young plant through what is left and planting so that the cup is half buried in the earth, the plant will be safe from cutworms.

Mr. Bisbee says that cutworms attack the tomato vines just at the level

How the Vine is Planted.

of the ground and never come above the surface. The cup acts also as a reservoir, holding moisture in the soil it contains and letting it soak down to the roots without washing out into the surrounding earth.

He uses the cups, also, in planting slips of any sort, cutting a hole in the bottom for drainage, filling with earth and placing the whole in the ground. As the slip grows its roots destroy the remnants of the cup.

### Concrete or Earthworks.

The Engineering Record says that every new war offers great scope to the skill of the engineer. One problem, for example, that needs to be solved immediately is to find the material that will best resist modern high explosives. Concrete, the mainstay of modern fortifications, is obviously almost useless—at least in its usual form. A few shells charged with high explosives knocked to pieces the turrets of permanent concrete forts, or if they did not hit them, toppled them over by completely shattering their concrete bases. Temporary earthworks, on the other hand, and one or two forts heavily banked with earth, resisted attack by such shells with measurable success. A shell penetrates concrete, and then exploding, rends the whole mass, whereas on entering earth it merely blows out a big hole, which the falling dirt partly fills. In our Civil war an active shoveling party could quickly repair any damage to an earthwork that even heavy bombardment could do. The question now is whether concrete can be so re-enforced as to stand the shock, or whether recourse should not be had to some improved form of earthwork. Certainly it is true that a few feet of loose dirt, or even of snow, would stop a bullet that would pierce a half-inch iron plate, and the same principle seems to hold good for heavy projectiles.

### Ships Chinese in Sacks.

Harry E. Brock of Seattle, who was arrested recently while driving an unlicensed automobile carrying two Chinese concealed in canvas sacks, confessed that he has been engaged in a thriving Chinese smuggling business for seven months and that for each subject brought into the United States from Canada he received \$200.

Brock was delivering the Chinese to Hop Quick Co. company of Portland. Ching Chong Kee, a merchant of Vancouver, British Columbia, was the Canadian agent in the deal.

Brock said he picked up the Chinese seven miles north of the international boundary line, walked them ten miles and used his automobile from Blaine the remainder of the distance.

### Training Italian Soldiers.

The Italian soldier undergoes a more severe training in some respects than a friend or enemy in the armies of Europe. His day begins at 4:30 a. m., and drill and routine continue, with a two-hour break of "compulsory repose," until 5 p. m. After that he has four hours' freedom, but must be back in barracks by nine (or 8:30 in winter), and is supposed to be abed when, half an hour later, the bugles sound the "silenzio." He is extremely well cared for by the authorities, but long marches are reckoned among the essentials of his training, and some regiments can cover sixty miles at five miles an hour, and consider it nothing remarkable.

### Described in Detail.

"What did Joan of Arc wear?" "She wore," answered the girl at the foot of the class, "a suit of steel, trimmed with sheet iron, and cut along rather severe lines."—Louisville Courier-Journal.

### Two Common Summer Ailments.

Thousands of hay fever and asthma victims who are not able to go to the mountains find relief in Foley's Honey and Tar Compound. It allays the inflammation, soothes and heals raw and rasping bronchial tubes and helps to overcome difficulty in breathing, and makes sound, refreshing sleep possible. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

Another privilege of old age is to criticize the movies.

### Brakeman was Cured.

F. A. Wootsey, Jacksonville, Texas, writes: "I was down with kidney trouble and rheumatism; had a backache all the time and was tired of living. I took Foley Kidney Pills and was thoroughly cured." Thousands have written similar letters. Foley Kidney Pills are tonic in effect and act promptly. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

### Lacoste Farmers Institute.

A Farmers Institute was held by Mr. Fletcher Davis of the Hondo Anvil Herald, who, by the way is Field Agent of the State Department of Agriculture, at 8 p. m. Thursday in the W. O. W. Hall.

Mr. Davis held a talk on the institute work in general, explaining the aims and objects of the institute work and he urged farmers to attend these gatherings, to discuss such questions as crop rotation, insect pests, fertilizing of crops, farm life stock, especially milk cows. Mr. Davis proved by the statistics that some 93,000 Texas farms are operated without any milk cows thereon, he also urged co-operation among the farmers, as to the proper handling and disposing of the surplus produced on the farms.

Mr. Davis was followed by Mr. Sam Neel of Seguin, who talked on the Jersey cow and her place on the farm, discussing at length their value as butter producers. He laid much stress on the question of the proper feed for Jersey cows and stated that the feed as far as possible should be raised on the farm, and fed on the farm to good Jersey cows which are proven producers of butter fat. He further said that the percentage of the butter fat in milk varies all the way from 3 per cent in the poorest cows, to 13 per cent in the best cows, while the cows giving the poor percentage would consume their feed at a loss to their owners, and better producing cows would yield a good income. Further on in the discussion it was stated that a certain Jersey cow in Texas netted its owner over \$500.00 the past season.

Short discussions on cow peas and dairy cows and other items were then indulged in by the farmers present and at 11 o'clock the meeting adjourned.—Lacoste Ledger.

### Your Cough Can be Stopped.

Using care to avoid draughts, exposure, sudden changes, and taking a treatment of Dr. King's New Discovery, will positively relieve, and in time will surely rid you, of your cough. The first dose soothes the irritation, checks your cough, which stops in a short time. Dr. King's New Discovery has been used successfully for 45 years and is guaranteed to cure you. Money back if it fails. Get a bottle from your Druggist; it costs only a little and will help you so much.

### Sabinal Sentinel Siftings.

Mr. and Mrs. Rolf Balzen have for their guests Mrs. Balzen's sister and her son and daughters.—Knippa Cor.

Miss Janie and Mister Martin Knippa have gone to D'Hanis on a visit to their grand parents and other relatives.—Knippa Cor.

Mr. Oscar Richard left Wednesday for D'Hanis to attend the German celebration there.—Woody Cor.

Messrs. John Wentworth and family, Adolph Umlang and Jack Haby and family went to D'Hanis Wednesday to a barbecue.—Utopia Cor.

Mr. J. J. Knight made a business trip to Hondo last Saturday.

Mr. Jacob Reinhart returned last Friday from Reagan Wells.

### Constipation Causes Most Ills.

Accumulated waste in your thirty feet of bowels causes absorption of poisons, tends to produce fevers, upsets digestions. You belch gas, feel stuffy, irritable, almost cranky. It isn't you—it's your condition. Eliminate this poisonous waste by taking one or two Dr. King's New Life Pills tonight. Enjoy a full, free bowel movement in the morning—you feel so grateful. Get an original bottle, containing 36 pills, from your Druggist today for 25c.

### Temperament.

A good many persons treat their temperament as if it were a wart or a tumor over which they had no control.

"I simply can't do that," a man will say: "I guess it's a matter of temperament." Or a man who is a "welder on the trail"—who takes a wife as a "pardon" and then quits her on the trail—excuses himself on the score of temperament.

There is temperament, of course. And it is a good thing. It is chiefly that which keeps us from all being alike. Life would be dreadfully equable and boring if it were not for temperament.

But to mistake "cold feet" for temperament; or to let the real thing in the way of temperament master you instead of being mastered by you—that's bad. It's worse than bad, it's stupid.—Kansas City Times.

### A Medicine Chest for 25c.

In this chest you have an excellent remedy for Toothache, Bruises, Sprains, Stiff Neck, Backache, Neuralgia, Rheumatism and for most emergencies. One 25c bottle of Sloan's Liniment does it all—this because these ailments are symptoms, not diseases and are caused by congestion and inflammation. If you doubt, ask those who use Sloan's Liniment, or better still, buy a 25c bottle and prove it. All Druggists.

Our observation is that no automobilist's time is as valuable as indicated by his speedometer.

## COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

## CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

"Dodson's Liver Tone" Starts Your Liver Better Than Calomel and Doesn't Salivate or Make You Sick.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tone on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

## Deaths.

Thomas Franklin McClain, aged 59 years, father of Wm. McClain, formerly of Hondo but now of Del Rio, Henry McClain of Hondo, and Miss Ina McClain, who has frequently visited here and has quite a number of friends among our people, died at his home in San Antonio at 4:15 o'clock Monday morning. Besides those mentioned above Mr. McClain leaves a widow and a married daughter, both of San Antonio, to mourn his death. Interment was made at Laverna Tuesday.

Mrs. Guy Edwards (nee Schweers), aged 21 years, died at the home of her mother, Mrs. Mary Schweers, in San Antonio at 8:00 o'clock last Sunday evening. Besides her husband she leaves a mother, one sister and three brothers, all of San Antonio, besides numerous relatives in this immediate section, to mourn her untimely demise. The body was interred at Sayers station, fourteen miles east of San Antonio.

## GUESS AGAIN! IT'S NOT VON BERNSTORFF

Striking Resemblance, Nevertheless, to Kaiser's Envoy.

Morgan Jones, celebrated character man of the Thanhouser (Mutual) studios of New Rochelle, N. Y., enjoys a distinct reputation as an expert in the art of make-up. In a recent part he was mistaken for Count von Bernstorff, American representative of his Imperial Majesty, the Emperor of Germany. In "The Maker of Guns," a recent Thanhouser (Mutual) release,

Morgan Jones, Celebrated Character Man of the Thanhouser (Mutual) Studios, in a Clever Make-up, which is a heart-touching photo-drama, dealing with an important international situation—the trafficking in ammunition and war supplies—Jones appears in the role of a foreign diplomatic representative, visiting America for the purpose of purchasing big guns. In order to effect a disguise as nearly perfect as possible, Jones spent many hours watching motion pictures of the Ambassador and in studying his later portraits. Needless to say, his efforts were more of a success than even he had anticipated.

## Summer Girls' Club.

The members of the Summer Girls' Club delightfully entertained at the home of Mr. and Mrs. I. Wilson Saturday evening, August 7th.

The main event of the evening was the boys' endeavor to win the prize when small pieces of cloth to be embroidered were passed around. Mr. Sterling Fly was awarded the prize for the neatest work.

Appetizing refreshments of soda water and sandwiches were enjoyed.

Those present were (members of the club): Misses Nellie Wilson, Abbie Bradley, Lela Windrow, Clara Schweers, Glee Fusselman, Jennie Mae Dowdy, Ruby Nowlin, Belle Hancock. Guests: Bessie Brucks, Lucile Woods, Goldie Hurt, and Messrs. Arthur and Frank Jungman, Louis Bruck, Caughey Harger, Willie and Ralph Windrow, William Schmitt, Jr., Sterling Fly, Selby Woods, Kyle Bradley and Albert Mercer.

## Notice.

The undersigned ginners are under bond to comply with the Warehouse and Marketing Law of Texas, and therefore will not gin any wet cotton; and if it be found after ginning has commenced on a bale that the cotton is wet, damp, rotten or otherwise damaged such fact must be stated on slips of samples taken out. Further, an additional charge of 16 cents per bale will be made to cover extra expense for taking the samples. Further, we authorize all cotton buyers to collect all unpaid gin tolls when purchasing cotton and settling for same.

## Farmers' Institute Organized.

Sabinal, Tex., Aug. 12.—Sam Neel and Fletcher Davis, representatives of the State Agricultural Department, addressed a body of citizens at Utopia Wednesday evening on subjects of special interest to farmers. A farmers' institute was organized with the following officers: E. Krant, president; Prof. A. E. Dorow, secretary; J. L. Porter, first vice-president; W. A. Tampke, second vice-president; Sam O'Bryan, entomologist.—San Antonio Express.

## Paint.

## Rough Riders Attention.

A regiment of cavalry called the Texas Rough Riders, similar to the Rough Riders of Spanish war fame, is being recruited in San Antonio for service in the event of war, and young unmarried men between the ages of 18 and 35, who are interested should apply for further information at Martin's Drug Store, or write. Letters will be answered promptly. Address, Medical Officer, Rough Riders, Ho do, Texas, care Martin Drug Company.

## For Sale.

## Commissioners' Court.

The county commissioners met in regular session Monday, and were still in session yesterday morning, but it was thought the body would adjourn sometime during the day. Only routine business was, we understand, taken up. Monday was principally devoted to disposing of scalp bounty claims, a considerable number of these claims being turned down in the absence of evidence that the animals were destroyed in this county.

Road matters occupied a good portion of the commissioners' time, but as some of the road matters had not received final action, it is impossible to give the result in this issue. We will endeavor to give a synopsis of the business transacted in our next issue.

## German Scientific Discovery.

All the German scientists are not at the front, nor has the war wholly stopped the research work of those who remain at home. A new element is said to have been discovered by Professor Goehring of Karlsruhe, whose name is known in the realm of physico-chemical experiment. According to his claim, uranium, itself originally supposed to be an elemental substance, has yielded to disintegrating tests and has given off a simpler substance, to which Professor Goehring gives the name of brevium. The new element belongs to the radioactive group, but it is yet too early to assign it a position of relative importance or to judge of its possible scientific and commercial value.

## Silence on the Bench.

Judicial commendation of the oyster is made by Chief Justice McBride of the Oregon supreme court in Edwards vs. Mount Hood Construction company, as follows: "The writer knows from experience on the circuit bench that it is sometimes very difficult for a judge to refrain from making comments on a case during the progress of the trial, and especially where an apparent injustice seems to have been perpetrated; but after a reversal or two occasioned by this practice he concluded to go, not to the ant, but to the meek and lowly oyster, to consider its ways and be wise, and to keep the judicial mouth shut. He commends the example of the silent to all trial judges."

## A Candidate for Reform.

"What are you so gloomy about?" asked the warden. "The offense for which you were sent to this prison might have been much more serious." "That's what depresses me. I'm afraid they ain't going to let me stay here long enough to finish me education."

## Dreadful Suspicion.

He—We must be firm about our engagement, dear, and make your father toe the mark.  
She—But suppose you're the mark?

## LOVE ALWAYS FINDS A WAY

Liver and Onions, or a Struggle Between Love and Appetite—Letter Was Written First.

That night, 600 miles from home, in the dining room of the Travelers' Retreat, Higginson Bukettshop battled long and bravely with his appetite.

He hadn't written Clarabelle the daily letter yet, and all the hotel offered for supper was liver and onions, onions and liver, and liver as well as onions.

"What shall I do?" moaned the unhappy man. "I am famished, yet how can I send Clarabelle my usual kiss at the end of the letter after eating those onions? She will be sure to detect them—she is so sensitive—and then the engagement will be off."

Meanwhile the waiter was standing patiently at his elbow, remarking, "De liver'n onions is very good, sah. De onions'n liver is right toler'ble, sah."

"Hang it all, was ever man in such a fix!" cried Higginson Bukettshop. "Love or liver? Onions or Clarabelle?" Suddenly his handsome face lit up.

"Liver and 'onions!" he ordered. "By suspenders, I'll send the letter before I eat!"

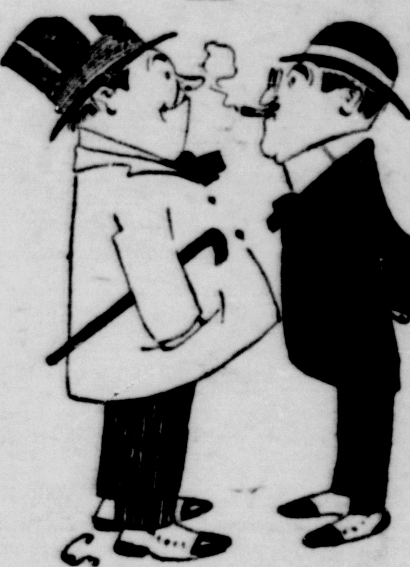

And, though the letter was unusually impassioned, he had finished writing it, kiss and all, before the liver and onions arrived.—Detroit Free Press.

## Plain Diagnosis.

"Now, doc," said the patient who wasn't so very sick, "I want you to get me a nurse. What I want is a nurse with golden hair, blue eyes, pretty figure and melodious voice."

"You don't want a nurse," retorted the doctor with some authority. "What you want is a front seat at a musical comedy."

## BRITISH BUSINESS METHODS.

"Has your son brought back any business methods from London?"  
"Oh! yes. He thinks we ought to serve tea afternoons and that all the stenographers ought to be blondes."

## Overlooked.

"Are you the editor of the paper?" asked the lady with the drab spats, calling.

"I am," replied the man with the poised pencil.

"Well, I called to ask if you wouldn't get larger type. My name was in your paper five times last week and a neighbor of mine told me she never saw it."

## Nobody Leaves a Fat Man.

Biggins (a man of abundant girth).—The doctor said I need iron.

Badger—Internally?

Biggins—What a question! How else?

Badger—I didn't know but he meant externally in the shape of a hoop or two.

## Not Easily Swallowed.

Bacon—This paper says a camera small enough to be swallowed to photograph the interior of the stomach has been invented by a Danish surgeon.

Egbert—Do you believe it?

"Certainly I believe it."

"Well, some people will swallow most anything."

## Then He Ducked.

Mrs. Bacon—I see it is said that many of the women of Chile are employed as car conductors.

Mr. Bacon—Never would do over here.

"Why not? I'd like to know."

"Why, the rear platform is crowded enough already by men."

## Man of Excuses.

Mr. Crimsonbeak—How long do you suppose it would take to come from the moon to the earth, dear?

Mrs. Crimsonbeak—I don't know and, what's more, I don't care; but if you are going to give that as your excuse for getting home late last night, it won't go."

## Perhaps.

Mollie—I see an English inventor has equipped his flying machine with an acetylene flare, which would burst into flame and form a signal should he fall into the sea.

Chollie—But wouldn't that frighten the fish?

## His Rank.

"I suppose the man who has charge of the coining of 25-cent pieces has an army rank."

"What army rank could he have?"

"That of quartermaster."

## Fine Cut.

"I certainly like the way our new cook prepares spaghetti."

"How's that?"

"She cuts through the meat chop."
